

Potential Areas of Environmental Justice Concern for Latino/Hispanic minority

based on 2000 U.S. Census data

3.5 % of Indiana residents have identified themselves as members of a Latino or Hispanic minority. On this map, census areas in which 5.25% - 6.99 % of the residents are members of a Latino or Hispanic minority are classified as "somewhat high Hispanic/Latino" populations. Census areas in which 7% - 100 % of the residents are members of a Latino or Hispanic minority are classified as high Latino/Hispanic populations.
